Ingredients:

- 1 box of your favorite vanilla or spice cake mix
- Ingredients for cake mix according to package directions
- 1 can vanilla frosting
- Green and red candy melts
- Candy canes
- Pretzels
- Gumdrops
- Candy sprinkles

Instructions:

1. **Bake the cupcakes:** Prepare and bake the cupcakes according to the package directions. Let them cool completely on a wire rack.
2. **Frost the cupcakes:** Frost each cupcake with a generous amount of vanilla frosting.
3. **Decorate the cupcakes:** Use candy melts to create "icing" for the gingerbread houses. Let them set slightly before adding the other decorations.
4. **Assemble the gingerbread houses:** Use pretzels for the walls, gumdrops for the doors and windows, and candy canes for the roofs. Get creative and add other candies like sprinkles, candy corn, or mini marshmallows for extra decoration.

Tips:

- You can use store-bought gingerbread house kits for the candies and decorations.
- To make the candy melt "icing," melt the candy melts in the microwave in short bursts, stirring in between, until smooth.
- Let the decorated cupcakes set for a few minutes before serving.
